PROFILE

Geography and Environmental Resources student with 2+ years supporting executive-level university operations and public-facing work. Experience spans GIS, environmental analysis, NAGPRA/CalNAGPRA communication, records management, and digital content.

Professional Experience

President's Office Student Assistant

Mar 2024 - Present

California State University, Stanislaus • Turlock, CA

- Support daily President's Office operations through scheduling, correspondence, visitor and phone assistance, records management, event coordination, document preparation, research, and special projects.
- Built and continue to maintain the university's public-facing NAGPRA/CalNAGPRA website section, organizing navigation, contacts, published notices, educational resources, and ongoing updates.
- Review, classify, digitize, and organize archival records, adapting the workflow to document volume, duplication, sensitivity, and complexity.
- Reassess materials initially categorized as non-NAGPRA, verify relevance, organize qualifying records for authorized access, and support secure disposition under established office protocols.
- Develop public-facing cultural-resource materials and related web content through iterative review while maintaining confidentiality and culturally responsible communication.

Technical Toolkit

GIS & SPATIAL

ArcGIS Pro, ArcGIS Online, QGIS, spatial overlay, buffer analysis, Select By Location, cartographic design, remote sensing fundamentals, Landsat data

PROGRAMMING & DATA

Java, Python (developing), ArcPy (developing), Jupyter Notebook, Microsoft Excel, data organization and cleaning

DESIGN & DIGITAL

Photoshop, Illustrator, InDesign, Premiere Pro, web content management, Word, PowerPoint, Outlook

Education

California State University, Stanislaus

B.A. Geography / Environmental Resources
Environmental Resources Concentration
Minor in Computer Science
Expected May 2028

ACADEMIC RECOGNITION

Dean's List - multiple semesters

Relevant Coursework

Geographic Information Systems
Climatology
Water and Power
Environmental Biology
Atmosphere, Weather and Climate
Computer Programming I-II
Data Structures and Algorithms

Portfolio Focus

GIS & SPATIAL ANALYSIS

Mapping, spatial comparison, cartography, and geographic pattern interpretation.

ENVIRONMENTAL GEOGRAPHY

Water, climate, landforms, hazards, and relationships between people and physical systems.

CULTURAL RESOURCES

Historical geography, NAGPRA/CalNAGPRA communication, records, and public interpretation.

DIGITAL & DATA WORK

Web content, data organization, structured workflows, and developing programming skills.

Professional Strengths

Institutional support • Records management • Public communication • Research • Information organization • Culturally responsible communication
